

ENECON[®]

International Distributors' Conference June 24 - 26, 2007

ENECON's International Distributors' Business Conference was held at the prestigious Garden City Hotel on Long Island, New York, June 24-26, 2007.

Tony

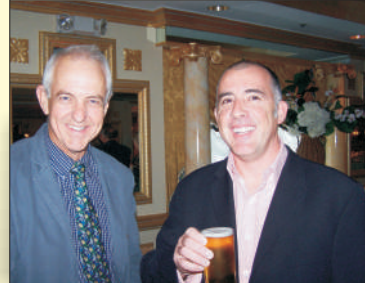

Garry

ENECON's Distributors, sales executives and guests began arriving on Friday and Saturday in order to get rid of some of the inevitable jet-lag that accompanies long-distance travel. Some took advantage of this down-time in order to visit Manhattan – just 45 minutes away by rail – or take in some of the local Long Island sights. Others simply relaxed at the hotel.

Bob Barr, Garry McGehee, John Huber and Ted Griffith got in a round of golf at one of Long Island's premier local courses on Sunday, perhaps thus starting a new tradition – the 'ENECON Open' golf competition. We have already decided to host

another **ENECON Open** during our next Distributors' Business Conference which will celebrate the Grand Opening of our new Global Headquarters some time in 2008.

By Sunday evening everyone finally had arrived and they were able to meet and greet their friends and colleagues at our **Welcome Dinner Celebration at the Garden City Hotel ...**

ENECON DISTRIBUTORS' CONFERENCE

Monday & Tuesday, June 25 - 26, 2007
The Garden City Hotel
Garden City, Long Island, New York

MONDAY

8:00 AM CONTINENTAL BREAKFAST All

9:00 AM **Welcome & Introductions** Ed Krensell
 • State of the Company / 2006 - 2007 Overview
 • Special Presentations: Andy Janczak
 • Induction of New 'Ten Year Club' Members
 • Special 'Outstanding Achievement' Award
 • 'Best Application' Contest Winners

9:45 AM **New Products & Technical Update** Andy Janczak
 Bob Kneuer
 Mike Tedesco
 • CeramAlloy CBX
 • ENESEAL CR
 • ENECLAD CFS as a Primer
 • New Products
 • Technical Q & A

10:45 AM BREAK All

11:15 AM **ENECON Italia's Road to Success** Alex Mancinelli
 • The Past: Building Solid Foundations
 • The Present: Past Hard Work Is Starting to Pay Dividends
 • The Future: Taking Advantage of ALL Opportunities

11:45 AM **Sealing Leaks in the Montreal Subways** Martin De Serres
 • Project Highlights:
 • ENECRETE WP Stops Hydrostatic Water Leaks
 • Also: Paper Mill Selects CHEMCLAD SC In a Special Color to Protect Vital Equipment

12:30 PM BUFFET LUNCH All

1:30 PM **ENECON Iberica Presentation** Juan Margarit
 • Focus on the Hydroelectric Industry, Nuclear Power & Military Applications in Spain

2:15 PM **ENECON Brazil Presentation** Denis Luz
 • Building Solid Foundations for Growth in South America

2:45 PM BREAK All

3:15 PM **ENECON UK Presentation** Graham Wilson
 • Focus on Power Generation Applications in a Highly Competitive Environment

4:00 PM SESSION ENDS

5:30 PM **Leave For NY METS Baseball Game** All
 • Private Bus Will Take Us to Shea Stadium
 • ENECON Day at the Stadium
 • Beer, Soda, Pretzels, Chips, Hot Dogs & Burgers for Dinner ... yum!

TUESDAY

8:00 AM CONTINENTAL BREAKFAST All

9:00 AM **Recruitment & Sales Training** Tim Healy
 • S-Q-C: Stop - Question - Clarify

11:00 AM BREAK All

11:30 AM **ENECON Australia Presentation** Matt Kenna
 • Interesting Applications from 'Down Under'
 • CeramAlloy CBX Performance Studies

12:30 PM BUFFET LUNCH All

1:30 PM **ENECON India Introduction** M. Annamalai
 Sanjeet Sarkar
 • New Master Distributor for India

1:50 PM **E.A. Magnetics Overview** Tony Mantella
 Andy 'JR' Janczak
 • New Marketing Strategies for ENEFLOW

2:30 PM **ENECON North East Presentation** Bob Barr
 Bill Woods
 • ENESEAL CR Represents Outstanding New Sales Opportunities

3:00 PM **Conference Wrap-Up** Andy Janczak
Closing Comments & Stirring Remarks Ed Krensell

3:15 PM CONFERENCE ENDS

ENECON's 10+ Year Club Membership Continues To Grow!

Andrew A. Janczak

From: Andrew A. Janczak
Sent: Tue 3/27/2007 2:12 PM
To: ENECON Family
Subject: TWO MORE ADDITIONS TO ENECON's 10-YEAR CLUB

Ladies and Gentlemen:

We are delighted to announce that two more individuals have been inducted into ENECON's very exclusive **TEN YEAR+ CLUB**. Our congratulations go out to **Bob Kneuer** and **Brien Neill** who both joined ENECON in 1997.

Both of these gentlemen received their TEN YEAR RINGS at our recent Sales Directors' Conference .

Congratulations, Bob & Brien! Here's to the next 10 years!

TEN-YEAR CLUB MEMBERS:

Andy Janczak (1990)	Bill Woods (1994)
Ed Krensel (1990)	John McGehee (1994)
Mike Tedesco (1990)	Andy 'JR' Janczak (1995)
Tony Mantella (1990)	Chris Tedesco (1995)
Helen Janczak (1990)	Michael Barr (1995)
Vivian Krensel (1990)	Carl Durham (1995)
John Balducci (1990)	Graham Wilson (1996)
Kazuo Azuma (1990)	Juan Margarit (1996)
Garry McGehee (1991)	Akbar Khan (1996)
Bob Barr (1991)	Matt Goldberg (1996)
Lauren Otto (1992)	Bob Kneuer (1997)
John Huber (1992)	Brien Neill (1997)

John Balducci, an ENECON founding shareholder and Director, looks on approvingly

'Best Application' Contest Winners!

1st Place
J.W.
Kim
Korea
\$2,000

2nd Place
Martin
De Serres
Canada
\$1,000

3rd Place
Juan
Margarit
Spain
\$500

Outstanding Achievement Awards

Andy and Ed presented beautiful Breitling watches to three individuals in recognition of their outstanding contributions to ENECON's growth and success over the past 15 years. They have collectively produced many millions of dollars in ENECON business.

Mady Baruah, ENECON's Regional Sales Director for India and South East Asia, has been responsible for bringing many new distributors into the ENECON Family and in the process, Mady has developed millions of dollars in business for ENECON in this critically important part of the world.

J.W. Kim, ENECON Korea, was recognized for his great advances in market development in Korea. Especially in the commercial marine market as well as the power industry.

Bob Barr, ENECON Northeast, has been a top ENECON producer for well over a dozen years and he and his organization have made great contributions to our collective success - both commercially and technically.

ENESEAL[®] CR

is hailed as one of the most successful new products ever to come out of our Research & Development Laboratories.

Intended for larger scale applications on steelwork as well as concrete, **ENESEAL CR** is a corrosion inhibiting, yet surface tolerant coating that is already posting extraordinary sales figures in the limited time it has been on the market. Special production equipment had to be purchased in order to keep up with the incredibly high demand for this unique product.

Bob Kneuer and Mike Tedesco provided a comprehensive Power Point presentation highlighting the extraordinary properties and potential uses for this revolutionary new material.

Revolutionary products . . .

... for rebuilding, resurfacing and protecting all types of fluid flow machinery, equipment and structures.

ENESEAL[®] CR

Corrosion Resistant, Flexible Coating

UV Resistant
Corrosion Resistant
Water Based
Surface Tolerant

UV resistant, liquid elastomeric coating system which dries to a highly durable, seamless, weather resistant, protective 'skin'.

ENESEAL[®] CR is a single component, water based, liquid coating which dries to a highly durable, corrosion resistant, elastomeric 'skin' that provides extraordinary environmental protection to metal and concrete / masonry surfaces. It can also be applied as a top coat over most zinc primers.

ENESEAL[®] CR is a 'surface tolerant' coating system that does not require abrasive blasting. It exhibits excellent adhesion to all types of ferrous metal as well as galvanized surfaces. Mechanical wire brushing, grinding or high pressure water blasting is typically acceptable to achieve good adhesion.

ENESEAL[®] CR incorporates a unique blend of corrosion inhibitors, UV resistant resins and pigments, erosion resistant inorganic fillers and elastomeric acrylic polymers in order to provide outstanding performance in all types of demanding industrial and marine environments. Easily applied by brush, roller or spray, ENESEAL[®] CR cleans up quickly and easily with just soap and water.

- Steelwork
- Metal roofs
- Galvanizing
- Bridges
- Tanks
- Decks
- Pipes
- Ducts
- Concrete
- Wood

700 Hicksville Road · ENECON Center · Suite 110 · Bethpage, NY 11714-3496

ENECON's current manufacturing and warehouse facilities are literally 'bursting at the seams' in order to keep up with a 60%+ increase in business in 2007.

A decision, therefore, was made to build a new and much larger global headquarters facility in Medford, NY (near the Brookhaven National Laboratory) - just 30 miles east of our current plant located in Bethpage, NY.

A number of Distributors captivated the audience with their presentations which focused on a wide variety of topics and applications...

Alex Mancinelli, ENECON Italia, discussed how they started, where they are today and where they are going in the months and years ahead.

Martin De Serres, ENECON Quebec, riveted the audience with his detailed account of a major leak sealing project in the subway tunnels of Montreal.

Juan Margarit, ENECON Iberica, created excitement with his entertaining discussion regarding numerous large projects successfully completed in Spain - especially in the power industry.

Denis Luz, ENECON Brazil, provided a very impressive outline of the extraordinary efforts that had to be expended in a relatively short period of time to establish ENECON in Brazil: local language videos, literature, etc.

Graham Wilson, ENECON UK, discussed numerous successful projects that he has completed in this highly competitive market.

Tim Healy, ENECON's recruitment and sales training consultant, presented a highly informative as well as entertaining program that focused on his special "Stop - Question - Clarify" technique of selling.

Matt Kenna, ENECON Australia, discussed a number of very successful projects that he has completed in Australia - with special emphasis on CeramAlloy CBX.

M. Annamalai, ENECON India, introduced his organization - The Murugappa Group, a \$2 Billion dollar company - who have recently acquired the Master Distributorship for all of India.

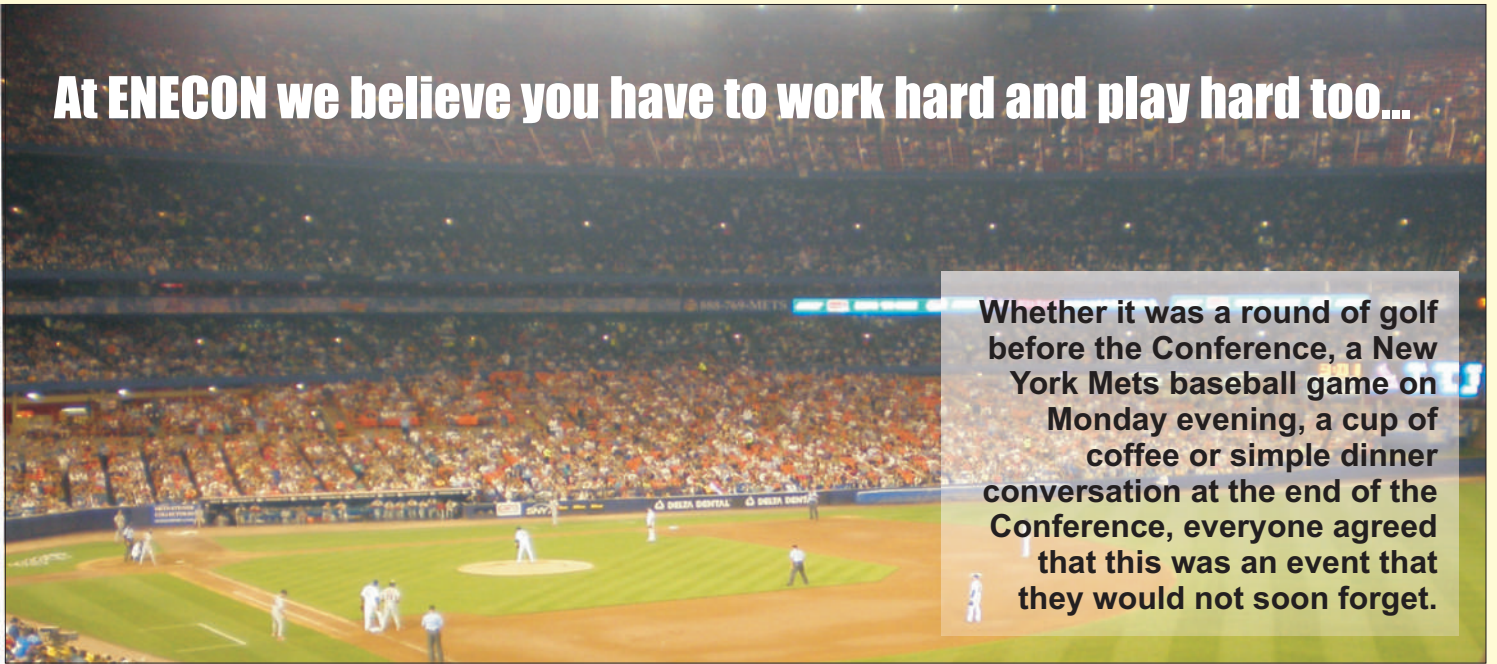

Andy 'JR' Janczak & Tony Mantella, E.A. Magnetics, and ENECON Subsidiary, provided a fascinating introduction to the 'world of magnetics' as part of our decision to shift marketing and sales development responsibilities for ENEFLOW Fluid Dynamic Power Cells to EAM in the future.

Bob Barr & Bill Woods, ENECON Northeast, closed out the program with an extremely impressive presentation focusing on ENSEAL CR being tested for coating a bridge over the Hudson River in upstate New York.

At ENECON we believe you have to work hard and play hard too...

Whether it was a round of golf before the Conference, a New York Mets baseball game on Monday evening, a cup of coffee or simple dinner conversation at the end of the Conference, everyone agreed that this was an event that they would not soon forget.

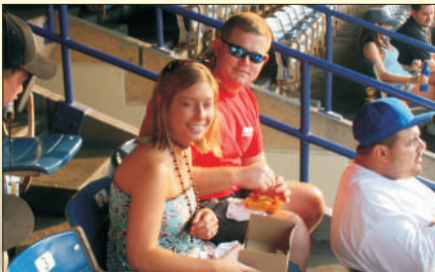

Yossi and his boys enjoying the game

Fun times on the bus

Denis and Mike approve
