

Argentina's Montefiore Group Shifts Their ENECON Operations into High Gear

Edgar De Toro, one of Montefiore's Account Managers, Marco, Andy and Ernesto visit a petrochemical plant and steel mill near Buenos Aires.

Andy Janczak & Marco Grande visited Buenos Aires and spent some quality time with ENECON's newly appointed distributor for Argentina, **Industrias Montefiore/Soluciones MRO**, one of the most highly respected names in the industrial marketplace in Argentina.

The Montefiore Group is probably best known for supplying industrial hoses and connections as well as packings and seals for all types of pumps.

The company was founded in the 1960's and now has over 450 employees - including over 100 sales people calling on more than 6,000 industrial and commercial clients throughout Argentina.

Aldo Montefiore has taken the ENECON Operations under his wing and has appointed Ernesto Daich as the ENECON Division Sales Manager. Carlos Angueira has been appointed Technical Manager for the ENECON Division. Both have attended training seminars in New York earlier this year.

We are delighted to have this extraordinary organization as part of our international ENECON Family.

Jose Montefiore, President of the Industrias Montefiore, is flanked by his sons, Marcos (left) and Aldo (right).

ENECON Argentina gets a 'Thumbs up' from Ernesto.

Carlos and Marco review newly translated Process Instructions.
