

ENECON Completes It's Largest International Training Session with 25 Participants from 7 Countries with Dual Language Simultaneous Translation

Imagine an ENECON training session with 3 people speaking at once in 3 different languages...but with everybody in the room understanding it all.

That is exactly what the most recent ENECON International Training Session looked like. We had 25 participants with simultaneous translation in both Chinese and Spanish provided through headsets.

Our guests came from Mexico, Paraguay, Argentina, Peru, China, Morocco and the U.S. Translation was provided by Jon Ma, ENECON's Regional Sales Director for the Greater China, and Marco Grande,

ENECON's Regional Sales Director for Latin America.

We are confident the participants left with the best possible training ENECON can provide.

The week was filled with lively discussions, spirited meals and the overall sentiment that ENECON continues to be the world leader in fluid flow systems performance enhancement as well as plant life extension technologies.

We wish all of our newest ENECON Family members, "good luck and good selling!"
