## WATER RESOURCES

CRITICAL TO THE WELL-BEING OF OUR  
COMMUNITIES AND THE ENVIRONMENT

**ENECON®** Corporation announces new product

**ENECON®'s DuraWrap™ Carbon Fiber Pipe Wrap System** repairs, reclaims, reinforces and extends the life of all types of

metal and concrete pipes and tanks. This polymer/carbon fiber reinforced composite makes repairing and rebuilding aging, often severely deteriorated piping, tanks and other fluid flow equipment possible. The DuraWrap™ composite, a unique marriage of ENECON®'s high performance polymers and cutting-edge, carbon fiber technology, was specifically created to repair, rebuild, reinforce and even restore the integrity of such fluid flow systems—greatly extending their service life and eliminating the need for expensive replacement. For more information about DuraWrap™ as well as the complete line of polymer solutions from ENECON®, visit the company's website at [www.ENECON.com](http://www.ENECON.com).
