

ENECON Indonesia Has 'Hole-in-One' Customer Event

Andy Pranata and his ENECON Indonesia Engineering Team recently hosted a successful Customer Event at the Damai Indah Golf Course in Jakarta, with over 55 current and prospective customers in attendance. ENECON Regional Sales Director for India and S.E. Asia, Mady Baruah, was also on hand to lend his support to Andy and his Team.

The multi-media presentation, including a viewing of **ENECON Worldwide**, as well as the ENECON Power Point Presentation, focused on the latest

advances in polymeric maintenance and repair technology.

The open question and answer forum permitted the attendees to share their ENECON application stories, as well as learn from each other.

Following the formal presentation, the group enjoyed a buffet lunch then headed out to the golf course for a putting competition. Prizes were awarded for 1st, 2nd and 3rd places.

This was truly an event to remember.
