

ENECON Tennessee recently hosted a Customer Event at the Lane Motor Museum in Nashville, TN, which is home to hundreds of classic cars from around the world.

Over 20 current and prospective customers

were in attendance.

The multi-media presentation, given by ENECON Tennessee President, Ted Griffith, with support from ENECON Corporation President, Andy Janczak, covered the latest advances in

polymeric maintenance and repair technology.

The open forum permitted the attendees to share their ENECON application stories, as well as learn from each other. Discussions were always interactive and productive.

After the formal seminar, the group enjoyed a buffet luncheon then a tour of the museum's 40,000+ square feet of open floor space. Specializing in European cars, the Lane Motor Museum has become a well known Nashville landmark.
