

CHEMCLAD & ENESEAL Save Large Water Tank at Chilean Dairy Product Manufacturer

Client:
Dairy Product Manufacturer

Location:
Chile

Problem:
Large hard water tank suffering from interior and exterior corrosion.

Solution:
The interior of the tank was grit blasted to a white metal finish then protected with 2 coats of CHEMCLAD GP. After mechanically cleaning and power washing, the exterior of the tank was protected with 2 coats of ENESEAL CR.

Coverage Area:
150,80 m² / 1623.2 ft²

Cost:
\$40,000 (\$24,000 in ENECON products & \$16,000 in labor).

Savings:
Replacing this tank would cost upwards of \$150,000.
